Work experience

Zaltek Digital

Newcastle, UK

Junior Associate (Part-time)

Jun 2022 to present

- Designed a council website template in Figma, now used by 650+ UK councils
- Managed the company accounts and reported profit by project from time-tracking data
- Designed a digital tool for the NHS-SPS in Figma, applying UK Government Design Principles
- Built automated email marketing workflows in n8n, generating qualified sales contacts

Raymond James Monument

Newcastle, UK

Wealth Management

Aug 2026

- Built a Shariah-compliant portfolio matched on risk, then on exposure, using sukuk in place of bonds
- Compared holdings in client portfolios against a fund pitched by its manager, and wrote a recommendation
- Used BlackRock Portfolio 360 to analyse the portfolios I built

Parkdean Resorts

Newcastle, UK

Customer Sales Support Advisor

Jun 2026 to Sep 2026

- Consistently ranked top three of around 25 call centre advisors on the daily revenue leaderboard
- Beat all eight other summer hires on conversion rate and total sales value

ICD Energy

Newcastle, UK

Intern

Sep 2024

- Compiled 1,000+ records from several sources into a single Excel workbook for the team

UK Parliament, House of Lords

London, UK

Work experience

Jul 2023

- Researched policy issues for House of Lords peers, focusing on UK productivity rates
- Co-wrote and fact-checked a speech delivered by a Labour peer under tight deadlines

Projects

Portfolio Risk Dashboard

risk-dashboard-padraig.streamlit.app

- Built a dashboard measuring VaR, CVaR, Sharpe, Sortino, beta and drawdowns for any portfolio
- Added factor-based stress testing that shocks market, rate and volatility exposures

Escape Velocity: SpaceX IPO Analysis

github.com/poggey/escape-velocity

- Analysed the June 2026 SpaceX IPO: pricing mechanics, valuation and post-listing performance

Stirling: Daily Economic Briefing

github.com/poggey/stirling-report

- Automated a daily economic briefing from public APIs, with a permanent replayable archive

Extracurricular activities

- Raised over £2,000 across a year for a Zambian project, then built houses and taught on site
- Competed in martial arts as a black belt, and led and taught classes

Skills

Technical Skills: Python (pandas, NumPy, scikit-learn), regression and Monte Carlo modelling, Excel
